CURICULUM VITAE

VUTH SACHAKBORAMEIY

Apply for **Full-Stack Developer**

ABOUT ME

A full-stack developer with 3+ years of experience in developing recruiting system, e-commerce platform, analytic dashboard, file transfer, web scraping, API integration, and 1 year of digital business development in developing conduct UAT, PVT testing of all assigned projects (Mobile + Internet Banking + Online Payment Integration)

I am proficient in front-end technologies such as ReactJs, SASS/CSS/Tailwind CSS/Material UI and JavaScript, with a strong focus based on business requirement and user-friendly design. My expertise extends to popular frameworks like React and Vue.js, enabling me to build dynamic and interactive web applications that resonate with modern users. On the back end, I am well-versed in server-side scripting languages like Node.js and Javascript, coupled with a solid understanding of databases such as MongoDB and MySQL. This comprehensive skill set allows me to architect robust and scalable web solutions.
